- **Magic Edtech** Gurgaon, India
Frontend Developer *Feb 2022 - June 2023*
 - Designed and implemented interactive user interfaces for websites and applications.
 - Tested cross-browser compatibility of web simulations in multiple browsers and operating systems. • Debugged existing code to identify and fix bugs or performance issues.
 - Ensured clean, valid HTML and CSS markup conforming to industry standards.

PROJECTS

- **My Project** Portfolio, Image Capture App, Weather App, Digital Portfolio, Quote Generator
- **Portfolio Website** - Link It's a comprehensive showcase of my skills, experiences, and some of my personal projects.
- **Image Capture App** - Link An attempt to develop a feature-rich image capture application using ReactJs, enabling users to capture images using both the front and back cameras of their devices. The application offers a seamless user experience with functionalities including zoom in/out before capturing, selection of different aspect ratios (16:9, 4:3, 1:1) for images, and an elegantly designed gallery to display captured images..
- **Weather App** - Link Developed a comprehensive weather application that delivers real-time weather updates and forecasts.

EDUCATION

- **S.K.I.T** Jaipur, Rajasthan, India
B.Tech in Information Technology; SGPA: 8.9/10 *2018 - 2022*
