PROFESSIONAL SUMMARY

Dedicated Frontend Developer with 2 years and 10 months of experience in creating visually appealing and user-friendly web applications. Proficient in HTML, CSS, JavaScript, and React.js, with a strong foundation in cross-browser compatibility and responsive UI. Proven ability to handle projects singlehandedly, efficiently collaborate with backend and DevOps teams, and deliver efficient and artful code while adhering to industry standards and best practices.

AREA OF EXPERTISE

- **Languages:** JavaScript (ES6+), HTML, CSS
- **Frameworks:** Reactjs, Nextjs
- **State management:** Redux
- **Tools:** Webpack, Figma
- **Platforms:** Vs Code, Github

EXPERIENCE

• Kaidoko Automation Solutions

Frontend Software Developer

Sep 2024 - Present

- Developed and integrated API-based functionalities.
- Designed and implemented pixel-perfect user interfaces, ensuring responsive design and high-quality user experiences.
- Built assignment and quiz modules for an engaging e-learning platform.
- Integrated PDF viewer and video playback capabilities to enhance course learning experiences.
- Implemented features for users to log content-related issues and add personalized notes for chapters, improving learning support.

• Setu Business School

Software Developer - Full time

Feb 2024 - Present

- Developed and tested new code for various projects, ensuring high-quality standards.
- Upgraded existing software to improve interfaces, functionalities, and performance, enhancing student understanding.
- Optimized the frontend codebase for performance, accessibility, and maintainability and also evaluated new technologies, tools, and techniques to enhance the overall user experience.
- Implemented pixel perfect and responsive UI for Webapps using Figma

• Magic Edtech

Associate Software Engineer

Gurgaon, India

Feb 2022 - Aug 2023

- Developed efficient, well-tested code for educational web applications to facilitate better student learning.
- Collaborated with team members to identify and resolve software bugs across multiple devices (Windows, iPad, Android) and browsers (Chrome, Firefox, Safari).
- Improved page load times by optimizing images, scripts, and implementing lazy loading techniques.
- Ensured cross-browser compatibility of web simulations in various browsers and operating systems.
- Ensured web applications met WCAG (Web Content Accessibility Guidelines) standards to provide inclusive education for all students.
- Integrated third-party APIs and services to extend the functionality of educational web applications.
- Implemented pixel-perfect UI using Figma.

PROJECTS

- **My Project** Portfolio, Image Capture App, Weather App, Digital Portfolio, Quote Generator
- **Portfolio Website** - Link It's a comprehensive showcase of my skills, experiences, and some of my personal projects.
- **Image Capture App** - Link An attempt to develop a feature-rich image capture application using ReactJs, enabling users to capture images using both the front and back cameras of their devices. The application offers a seamless user experience with functionalities including zoom in/out before capturing, selection of different aspect ratios (16:9, 4:3, 1:1) for images, and an elegantly designed gallery to display captured images..

EDUCATION

• S.K.I.T

B.Tech in Computer Science;

Jaipur, Rajasthan, India

2018 - 2022
